FIELDS OF ACTIVITIES

ENERGY-ENVIRONMENT

- Belt conveyor
- Extraction screw
- Chain equipment
- Elevator
- Wide belt unloader for trucks and wagons
- Fire safety system and dust removal
- Storage by longitudinal tripper
- Grasshopper / Stacker
- Storage building
- Weighing and dosing
- Screening and separation
- Sampling

TUNNEL - CONSTRUCTION

- Tunnel expandable conveyor
- Vertical and horizontal belt storage
- Made-to-measure Booster
- ZZ belt conveyor – Sandwich type
- Sidewall conveyor belt
- Stockpiling
- Trains, trucks and barges loading
- Second-hand equipment
- Belt cleaning, Wash box
- Weighing and dosing

MINING – CEMENT - AGGREGATES

- Horizontally curved conveyor
- Long-distance conveyor
- Suspended conveyor
- Shiftable conveyor
- Integration of crushing/screening system
- ZZ belt conveyor – Sandwich type, and sidewall conveyor belt
- Storage building
- Weighing and dosing
- Stockpiling
- Trains, trucks and barges loading
- Rope conveyor
- Conveyor with angle deviation (spin system)

PORT

- Standard Wharf Hopper (Stand'hop)
- Made-to-measure Wharf Hopper
- Loader/unloader (trucks, trains, ships)
- Weighing tower
- Stackers / Scraper-Reclaimer
- Storage building
- Storage by longitudinal tripper
- Weighing, dosing, mixing
- Mixing unit
- Dust Removal
- Sampling

OUR SKILLS

RBL-REI is a company with a worldwide reputation, specialized in the design and construction of continuous bulk handling installations.

ENGINEERING

- Calculations, studies, finite elements calculation method
- 2D, 3D, and TEKLA drawings
- RBL-REI (In-house) conveyor calculation software
- Electrical System/Automation/remote maintenance
- Civil works
- ATEX, fire safety system, dust removal
- Sampling

MANUFACTURING

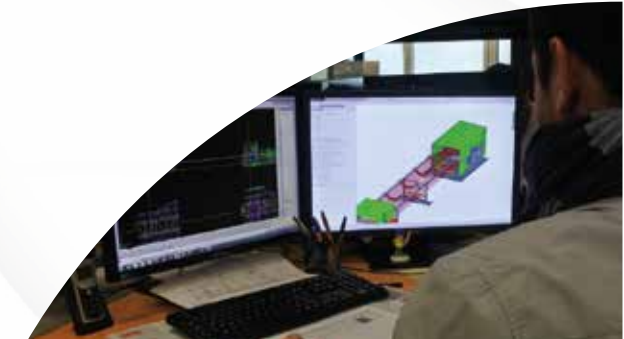

- Workshop of 26,400m²
- Cranes up to 100 T
- 16m high gate
- Quayside workshop
- EN1090 certified

CONSTRUCTION

- MASE-certified assembly teams and means
- Supervision teams
- Start-up teams
- Mechanical / Electrical / Civil work
- Safety / QHSE / Environment management

SERVICE

- After-sales services team
- Management of spare parts and consignment stock
- Expertise on existing systems
- Optimization consultancy services
- Control mission
- Training
- Second-hand equipment fleet
- Remote maintenance
